What if energy could do more than power our cities? What if it could strengthen communities, connect people, and inspire new forms of urban living? The PED4ALL closing conference invites participants to explore these questions through a dialogue on **technology, design, and governance**, highlighting how **collaborative approaches can turn neighbourhoods into drivers of a just and sustainable transition**.

The closing conference of the **PED4All project** brings together researchers, professionals, and public policy experts to discuss key strategies for sustainable urban transformation. The conference presents the **main research findings** through **three thematic sessions** focused on **technology, spatial design, and governance**, exploring cross-cutting issues such as energy poverty, urban regeneration, and bioclimatic conditions.

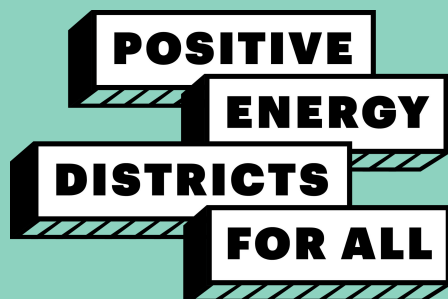

Hosting the project's international network - from Istanbul to Brussels and Rome - the conference opens with an **inspirational keynote address** that offers new perspectives on energy and transitions, and concludes with an **open question-and-answer session** aimed at an audience of stakeholders and practitioners.

The conference will be held in English.

Participants will be able to follow the proceedings [remotely via Zoom](#).

The opening session will be streamed live on the website

14:00-14:15 — Registration

14:15-15:00 — Opening session

Welcome by Fondazione Giangiacomo Feltrinelli

Lecture *Looking forward. Territories in Transition, Communities in Action*

Fabio Deotto writer and journalist

15:00-15:15 — Opening remarks- *Neighbourhoods as New Energy Frontier*

15:15-15:45 — *Cureghem, Ostiense, Kartal: stories of Energy Transition*

15:45-16:30 — *Who drives Energy Transitions?*

Marco Ranzato Roma Tre University

Monica Bernardi University of Milano Bicocca

Davide Testa LUISS University

16:30-17:15 — *Designing Spaces for inclusive Energy Transitions*

Fabio Vanin Vrije Universiteit Brussel

Cristina Renzoni Polytechnic University of Milan

Marco Voltini Polytechnic University of Milan

17:15-18:00 — *Wired for Tomorrow: Tech Transforming Neighbourhoods*

Hatice Sozer Istanbul Technical University

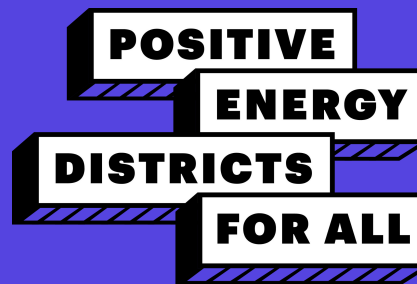

Ilaria Montella Roma Tre University

Stefano Converso Roma Tre University

18:00-18:45 — Closing session *A collective agenda for energy transition*

Lorenzo Pagliano Polytechnic University of Milan

18:45-19:00 — Q&A

Curatorship:

Dieter Bruggeman

Fabrizio D'Angelo
